

2. In the empty box to the right of the corkscrew draw the negative spaces that you see between the corkscrew's parts. Fill them in with pencil graphite and a white corkscrew will appear.

3. Below you see seven boxes. The one on the left is white and the one on the right is black. Fill in the other five boxes between white and black with progressive gradients of gray from light to dark. Each box should be a specific and separate value, rather than a continuous blend across the boundaries of the box.

4. In the box below draw a picture of a pig
